Quality Tools for Smart Cleaning™

Electrostatic Dry Mops

COVER MORE FLOOR WITH LESS EFFORT

Removing dust and soil is an important part of the cleaning process. Dry mopping helps reduce the frequency and volume of wet cleaning, reduces water and chemical usage, and helps mitigate the risk of slip and fall accidents while improving cleaning efficiency.

HOW DOES IT WORK?

STATIC CHARGE CREATED:
A short-lived charge builds as the pad moves, pulling in dust and dirt particles

DIRT SPREADS EVENLY:
No pile-up on the leading edge, so more dirt gets picked up across the sheet

TIME TO CHANGE THE SHEET:
Once the entire surface is saturated with dirt, swap in a fresh sheet

WHAT'S THE DIFFERENCE?

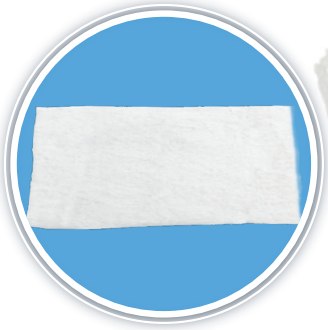
ADHESIVE BASED SHEETS
Adhesive based sheets rely on a sticky residue to pick up dirt and debris. Once the residue has reached its soil load capacity, there is nothing for the dust to adhere to, limiting the ability to hold soils and cover large areas without frequently replacing your sheet.

EXCELLA DRY MOP SHEETS
Electrostatic sheets create a short-life electrostatic charge when slid across a hard surface, drawing the dust, dirt, pollen, hair, and bacteria (down to 2 to 3 microns) right into the fiber matrix, where it is held until disposal. Soil capacity and efficacy is greatly improved as the sheet itself does the work and doesn't rely on a sticky residue to hold the soil.

A complete dry mop solution

ELECTROSTATIC SINGLE-USE SHEET

Removes dust and soil efficiently as an important part of the cleaning process. Dry mopping helps reduce the frequency and volume of wet cleaning

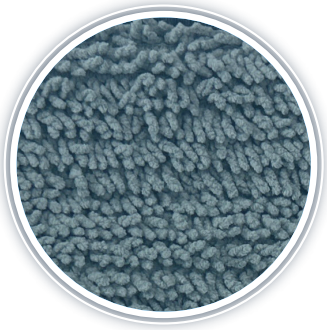


EASY TO MANUEVER

Utilizing a lightweight pole and 360-degree mop head, the Excella Dry Mop glides easily along the floor and is perfect for cleaning in tight spaces

MICROFIBER BASE

Allows for easy clean up along uneven surfaces and in between grout lines



MOP CLIP RETAINERS

Lightweight construction securely hold dusting sheets in place. Streamline, low profile design, allows for easy cleaning under furniture

ELECTROSTATIC SINGLE-USE SHEETS

- Excella Electrostatic Single-Use Dusting Sheets provide a quick, convenient way to collect, trap and remove dirt, dust and debris
- 1 Roll of 6"x11" (15 cm x 28 cm) electrostatic dusting sheets, 200 ft. roll
- 400 perforated sheets per roll
- Sheets are perforated every 6", perfect for rectangle or trapezoid mop holders
- Self-dispensing packaging, keeps sheets clean, stores easily
- Ideal for dusting hard surface floors, baseboards and trim. In addition to other uneven hard surfaces like bookshelves, light fixtures, and furniture
- Easy, quick start system with minimal training needed
