UNGER TELESCOPIC POLES:
Match Your Pole To The Task

Quality Tools for Smart Cleaning™

UNGER TELESCOPIC POLES

Why use telescopic poles?

TELESCOPIC POLE SYSTEM

Safety at the highest level.

UNGER telescopic poles have always been the ideal tool for the job when it comes to making professional glass cleaning from the ground easier – and in addition save time and money. They are especially essential for high-access cleaning, providing a safe and efficient solution for hard-to-reach areas where ladders or lifts might otherwise be required.

Waterfed Telescopic Poles

WHY IT'S IDEAL

UNGER's Pure Water Cleaning System delivers a fast, eco-friendly, and cost-effective solution for exterior glass cleaning across industries. By removing minerals that cause streaks and limescale, it ensures a spotless finish while enhancing worker safety and facility image.

- Clean safely from the ground**
– No ladders or lifts
- Reach up to 65 ft**
– Lightweight carbon poles
- Spot-free finish**
– No streaks or chemical residue
- Cut costs**
– Fewer rentals and lower liability
- Work faster**
– Less disruption to staff and tenants
- Eco-friendly**
– 100% chemical-free system

Classic Telescopic Poles

WHY IT'S IDEAL

UNGER's specialized high-access cleaning tools are designed to safely and efficiently remove dust, cobwebs, and grime from hard-to-reach areas. Ideal for both interior and exterior use, these tools reduce worker strain while improving cleanliness and safety up to 30 feet from the ground.

- Clean high areas from the ground**
– No ladders needed
- Access tight spaces**
– Ducts, beams, and corners
- Stay in control**
– Precise, low-strain cleaning
- Remove tough grime**
– Pro-grade dust and debris removal
- Versatile use**
– Storefronts, interiors, and touch-ups
- Trusted by professionals**
– Durable, ergonomic design

*Working Reach refers to the estimated maximum reach, including the full extension of the pole(s), brush, adapter, and the worker's reach, all combined.

***Weight - 1 feather represents weight of the pole - 1 feather = lightest vs. 4 feathers = heaviest

Quality Tools for Smart Cleaning™

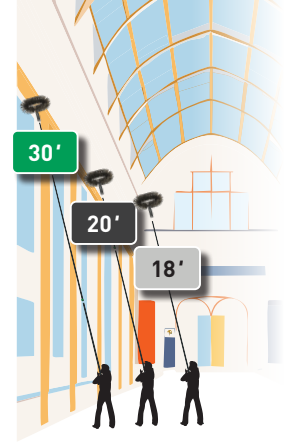

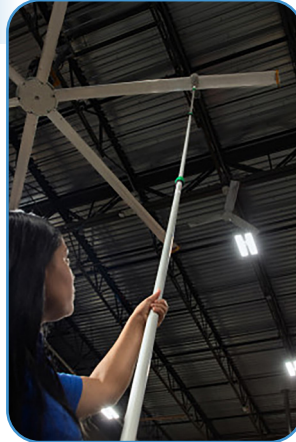

UNGER TELESCOPIC POLES

UNGER's Telescopic Pole Systems: safely clean from the ground

INNOVATIVE AND HIGH QUALITY

UNGER designs professional-grade Telescopic poles that prioritize safety, innovation, and ergonomics. Our durable handheld tools and accessories integrate with telescopic poles for safe, efficient cleaning from the ground—reaching heights up to 30 ft (9 m).

Fixed & telescopic poles

Reliable for both indoor and outdoor window and surface cleaning, this tool features an ergonomic design that enhances comfort with an extended reach.

Versatile modular system

Ergonomic and reliable for indoor/outdoor cleaning, with a modular design and 30-foot customizable reach.

Lightweight carbon design

Durable, lightweight telescopic pole ensures strong, rigid performance for easy indoor and outdoor cleaning.

Easy to transport & lightweight

Ergonomically designed for control, its lightweight triangular shape ensures precise indoor and outdoor cleaning.
