**OMNICLEAN
NEVER CLEAN WITH DIRTY SOLUTION AGAIN**

How does the OmniClean work to truly clean floors?

DUAL BUCKET TECHNOLOGY

OmniClean features dual bucket technology to separate clean and dirty solutions, ensuring the StayClean charging bucket is always clean.

STAND-UP WRINGER

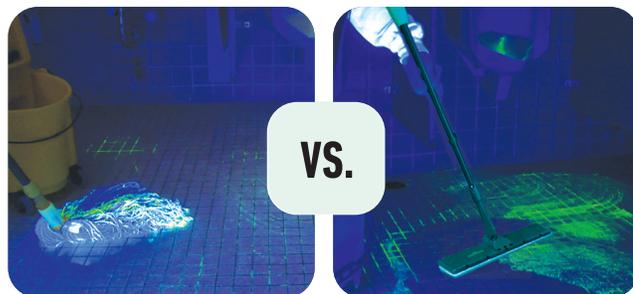

STAYCLEAN BUCKET

SOIL-CATCHING BUCKET

COTTON STRING MOP VS. MICROFIBER MOP

- Black light experiment reveals the advantages of using microfiber flat mops vs. cotton string mops
- Green color represents dirt / germs left behind after mopping

VS.

COTTON STRING MOP

Cotton string mop pushes dirt around

MICROFIBER FLAT MOP

Microfiber flat mop removes dirt

HYGIENIC CLEANING AND HIGHER PRODUCTIVITY

- Floors cleaned with OmniClean dry twice as fast to significantly minimize slip risk
- Microfiber mop pads remove 96% of germs from floors and surfaces

CLEANER: 2 times more effective at removing microbes* than traditional floor cleaning systems

FASTER: Over 40% more efficient than conventional floor cleaning systems

SAFER: Cleaned surfaces dry twice as fast* minimizing the risk of accidents

The tests clearly show that the Unger OmniClean system maintains far superior water clarity resulting in higher hygiene standards than traditional mopping systems.

The integrated wringer, scrub pad and overall versatility improves productivity and is easily maneuverable. OmniClean is sturdy and compact yet lightweight and easy to use. It can be used and stored in smaller places, and is suitable for a wide range of uses.

Paul Trendall, Sitemark Project Manager

The art of the cart

OMNICLEAN FEATURES

OmniClean has been specially designed to be compact, lightweight, and ergonomic to effectively clean floors fast.

ERGONOMIC HANDLE

- Adjustable height pole provides a customizable fit for the user plus a dual swivel handle for offset or fixed handle for straight pole options available

MICROFIBER MOP PAD

- Mop pad with scrub bristles and color

SCRUB BOARD

- Removes larger dirt particles from microfiber mop pad before placing in wringer

STAND-UP WRINGER

- Agitates remaining debris from microfiber mop pad resulting in cleaner solution and better cleaning performance

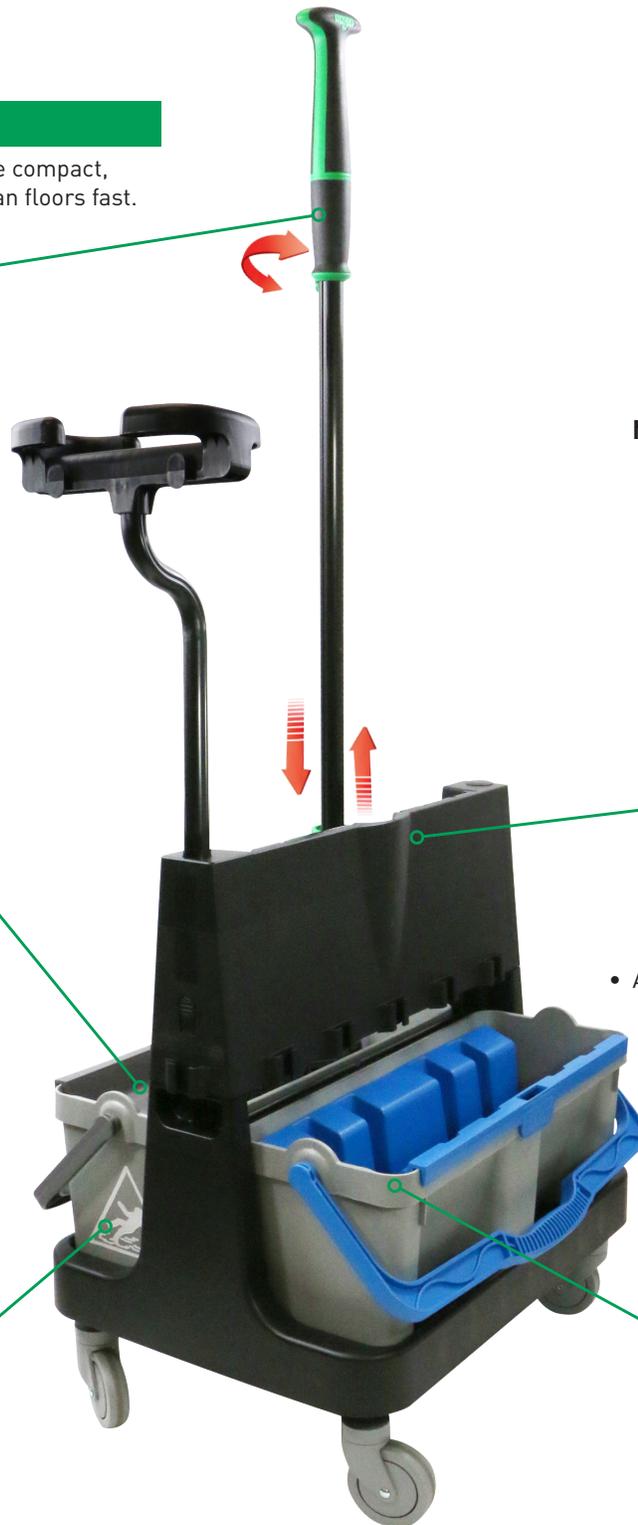

SOIL-CATCHING BUCKET

- Separated dirty solution bucket for all debris and dirt particles

STAYCLEAN BUCKET

- Contains a constant supply of fresh cleaning solution. Splash-free guide effectively minimizes spills during transport

Quality Tools for Smart Cleaning™

How does the system save you time and money?

WATER AND CHEMICAL CONSERVATION

- 1. Conserve water and chemicals by over 75% by using microfiber mops

INNOVATIVE DESIGN

- 3. Unique bucket design minimizes splash when in use, transport, filling, or emptying bucket

TIME SAVING

- 2. 1.5 - gallon capacity is half the size of traditional large chamber buckets - spend less time refilling and emptying buckets

How does the system protect employees and patrons?

REDUCE EMPLOYEE FATIGUE

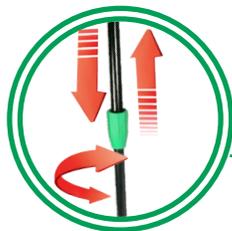

ERGONOMIC

- Ergonomic pole design minimizes upper body movement

CUSTOMIZABLE HEIGHT

- Adjustable handle for cleaner's height to reduce the need to bend over

EASY TO LIFT

- Buckets are lighter weight and are designed to be easier to lift and refill

Standard Bucket (full of water):
8.75 Gal. = 73 lbs (approx.)

Each bucket (full of water)
1.5 Gal. = 13 lbs (approx.)

LIGHT WEIGHT

- Flat mops are lighter weight and easier to maneuver than traditional cotton string mops

Wet standard cotton mop weight:
10 lbs / 4.4 kg (approx.)

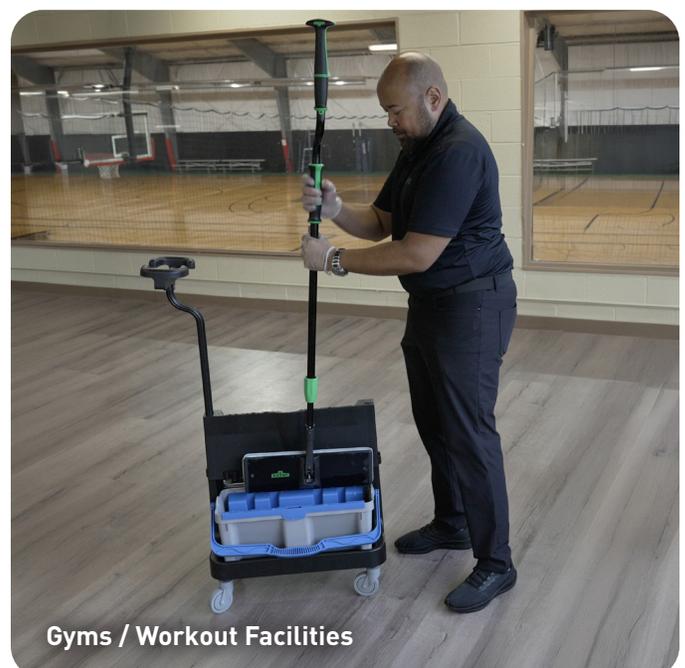

Quality Tools for Smart Cleaning™

What spaces benefit most from the OmniClean?

ENGINEERED FOR DEMANDING WORK ENVIRONMENTS

- Ideal for deepcleaning, overnight, end of day mopping, and day porters
- Best suited for facilities with narrow hallways, tight doorways, and small storage closets that need a compact cart.
- Perfect for any location that values the highest level of clean like food service, hotel lobbies, high-end buildings, and education can benefit from using an OmniClean.

Clean floors safer & faster
