Designed by custodians

The **RestroomR_x** Cart is the first cleaning system designed by custodians to help them work safer, faster and better than ever before. Comprised of three parts, an innovative restroom cart, advanced floor care tools and best in class cleaning accessories, the **RestroomR_x** Cart System supports the entire process and improves productivity while delivering the highest level of clean.

SMART DESIGN

The **UNGER RestroomR_x** Cart is designed to streamline restroom maintenance with improved posture, easy maneuverability, and efficient tool organization.

EASY TO MANEUVER

- The handrail allows you to maneuver the cart in and out of restroom entrances quicker and easier

LARGE STORAGE

- With an expanded storage module, you'll minimize trips to the supply closet

NARROW DESIGN

- The narrow tool tower design allows all tools to remain within the boundaries of the cart

STAY ORGANIZED

- Every tool in the system has a designated position on the cart. Tools are always where they need to be, and always clipped on securely

CONTAINED BASE

- The base of the cart also acts as a drip tray catching excess liquid, so nothing ever drips on restroom or hallway floors
