HOW TO CLEAN WITH OMNICLEAN

Step 6

When mop pad is dirty, insert into scrub board bucket and scrub debris off pad.

Step 7

Insert mop into wringer, wring mop 2x making sure to completely pull mop out of wringer each time.

Step 8

When mopping is complete, empty buckets into utility sink and rest Excella mop head on clean charge bucket with mop handle in carriage handle for transportation.
**ASSEMBLY**

- **Caster Installation**
  - Push casters firmly into the base of the carriage.

- **Handle Installation**
  - On the handle, press metal pins and guide into the carriage base until you hear a click.

- **Mop Head Installation**
  - Press metal pins on mop pad holder into the base of the Excella pole until you hear a click.

- **Bucket Setup**
  - Place scrub board bucket on Unger logo side and StayClean bucket on the opposite side. (Grey = scrub board, blue = StayClean)

**HOW TO CLEAN WITH OMNICLEAN**

**Step 1**
- Insert mop into StayClean bucket with mop pad facing the carriage to moisten the pad.

**Step 2**
- Fill scrub board bucket with water to the fill line then place bucket on carriage. Fill StayClean bucket with water and cleaning agent to fill line, place on carriage.

**Step 3**
- Adjust the height of Excella pole to chin height: tighten the locking collar. *Excella pole may vary*

**Step 4**
- Fill scrub board bucket with water to the fill line then place bucket on carriage. Fill StayClean bucket with water and cleaning agent to fill line, place on carriage.

**Step 5**
- Insert mop into wringer, wring mop 2x making sure to completely pull mop out of wringer each time.
