Tools and applications

FLOOR CARE

Ergonomic telescopic dustpan with color coded red or gray handle. Floor brushes are available for heavy-duty floor cleaning

GLASS CLEANING

Stingray® and SpeedClean™ systems both quickly and easily clean windows, hard to reach areas, and other surfaces without the use of ladders

MOPPING

OmniClean™ or Unger Excella® flat mopping systems provide the most efficient tools for cleaning floors. OmniClean compact cart can be separated from larger cart to clean small areas

TRASH COLLECTING

18.4-gallon vinyl bag & NiftyNabber® for picking up trash

TOILET CLEANING

Unger toilet brush has a 26-inch long handle that increases brush reach and reduces exposure to contaminants

DUSTING

StarDuster® Pro Duster has a disposable sleeve that attracts and holds dust over lambswool for cleaning stalls and other high surfaces

STORAGE

HANDRAIL

Handrail allows you to maneuver in and out of doorway entrances more efficiently

TOWER

Narrow tower design makes it easy to fit through tight doorways and store in most janitorial closets

3

SHELVES

Three tier shelving for replenishing supplies

CASTER WHEELS

Durable and high quality caster wheels are quiet, non-marking and maneuverable

Quality Tools for Smart Cleaning

A janitorial cart for every need

ZONECLEAN_{Rx}
A HIGHER LEVEL OF CLEAN

ZoneClean_{Rx} JANITORIAL CART SYSTEM

Light-duty zone cleaning

- Lighter kit configuration for flexibility and customization, and includes SpotCleaning Kit

DEEPCLEAN_{Rx}
A HIGHER LEVEL OF CLEAN

DeepClean_{Rx} JANITORIAL CART SYSTEM

End of day deep cleaning

- The go-to cart for deep cleaning needs. Includes OmniClean Dual Bucket Compact Cart, which can be separated from larger cart for floor clean ups. Also includes Stingray for all your surface and glass cleaning

SPOTCLEAN_{Rx}
A HIGHER LEVEL OF CLEAN

SpotClean_{Rx} JANITORIAL CART SYSTEM

Spot-cleaning & daily routines

- Comes with Unger Excella® microfiber mop with bottle on board for on-the-go spot cleaning

EFFICIENT, HYGIENIC, & SAFER

Efficient, hygienic and safe floor cleaning

HYGIENIC CLEANING AND HIGHER PRODUCTIVITY

CLEANER: 2 times more effective at removing microbes* than traditional floor cleaning systems

FASTER: Over 40% faster* than conventional floor cleaning systems

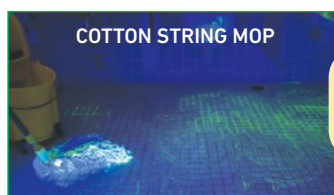

SAFER: Cleaned surfaces dry twice as fast* and therefore minimize the risk of accidents

*Independent test report from Sitemark® FM Best Practice Benchmarking, September 2020

COTTON VS. MICROFIBER

Black light experiment reveals the advantages of using microfiber flat mops vs. cotton string mops

COTTON STRING MOP

VS.

MICROFIBER FLAT MOP

Cotton string mop pushes dirt around

Microfiber flat mop removes dirt

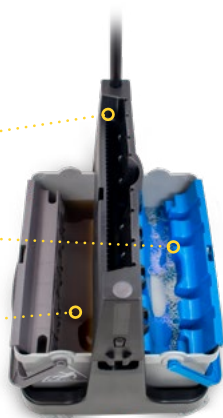

OMNICLEAN

OmniClean features dual bucket technology to separate clean and dirty solutions, ensuring the StayClean bucket is always clean

STAND-UP WRINGER

STAYCLEAN BUCKET

SOIL-CATCHING BUCKET

The Unger dual bucket technology sets the standard for cleaning efficiency and hygiene

Its many distinctive ergonomic design features enhance worker productivity, reduce injuries, and increased cleaning performance

- Separate cleaning solution from soiled rinse solution
- Prevent cross-contamination
- Save on water and chemicals
- Mounts on all standard cleaning carts
- Additional cleaning tools can be stored in tool clips

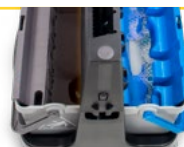

FEATURES AND BENEFITS

- Compact and lightweight dual bucket for damp and wet mopping of floors

- Ergonomic floor mopping and wringing out of the mop without bending down

- The intuitive two-chamber system ensures hygienic cleaning results by excluding the re-application of the dirty solution

- Effective mop preparation with visual inspection – without touching it

Quality Tools for Smart Cleaning

How does the system work to truly clean floors?

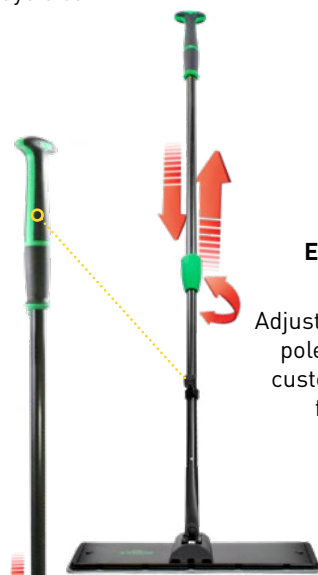

DUAL BUCKET TECHNOLOGY

OmniClean features dual bucket technology to separate clean and dirty solutions, ensuring the StayClean charging bucket is always clean

INNOVATIVE WRINGER

Results in cleaner solution and better cleaning performance

ERGONOMIC HANDLE

Adjustable height pole provides a customizable fit for the user

SCRUB BOARD

Removes larger dirt particles from microfiber mop pad

MICROFIBER MOP PAD

Mop pad with scrub bristles and color coding

SOIL-CATCHING BUCKET

Separate dirty solution bucket for all debris

STAYCLEAN BUCKET

Contains a constant supply of fresh cleaning solution

Unger OmniClean DUAL BUCKET KIT

Included in this kit is an Excella Straight Pole with storage clip

- Straight Pole with Clip
- Pad Holder
- Microfiber Pads (2)
- SmartColor Rectangular Labels (2)
- Carriage with Wringer
- Gray Bucket - 1.5 gal/5.7 L (2)
- Blue StayClean Guide
- Gray Scrub Board
- Gray Bucket Handle

FASTER, ERGONOMIC, & CONVENIENT

For the full line of cleaning products, visit our website at ungerglobal.com

Quality Tools for Smart Cleaning

Unger
Excella™
Clean floors twice as fast

Achieve a healthier level of clean!

ADVANTAGES

READY-TO-GO AT ANY TIME AND ANYWHERE

- Ready-to-use immediately
- No lengthy preparation, such as filling buckets, required
- Cleaning chemicals can be replaced in a matter of seconds

INCREASED PRODUCTIVITY WITH FATIGUE-FREE WORK

- Reduces the extreme strain placed upon employees and prevents work-related musculoskeletal diseases
- No lifting and carrying of heavy buckets
- Significantly less effort required for use when you need them

A TOP-QUALITY PROFESSIONAL TOOL

- First-class materials guaranteeing a long service life
- Robust tool for long-term use
- Sophisticated product design for intuitive handling

Unger Excella Floor Cleaning Kit allows you to:

- Achieve a healthier level of clean with a microfiber-based mopping system

Feel the intuitive motion

Two options available with straight or offset handles for comfort and minimal effort

- Ease back-breaking work with an innovative ergonomic design

- Increase cleaning speed with a self-steering pole and the elimination of buckets

- Clean a variety of spaces with enhanced system portability and size options

Ultra-fast & ergonomic floor mopping and finishing

INCREASED PRODUCTIVITY THANKS TO CONTINUOUS WORK WITHOUT INTERRUPTION

- Finishing work with just one person
- No lifting or carrying heavy buckets
- Protects employees against high levels of strain and job-related diseases of the musculoskeletal system

A PROFESSIONAL TOOL GUARANTEEING TOP WORKING RESULTS

- Lint free and non-soaking pad for easy and perfect distribution of solution

Unger Excella FLOOR CLEANING OFFSET KIT 18"/45 CM

Included in this kit is an Excella Offset Pole for ergonomic floor mopping

STINGRAY® INDOOR CLEANING TOOL

UNGER

Quality Tools for Smart Cleaning

See the full line of Unger Stingrays

FASTER, ERGONOMIC, & CONVENIENT

The most efficient indoor cleaning tool ever!

ADVANTAGES

ELIMINATE AIRBORNE CHEMICALS

- Unger Stingray eliminates airborne chemicals keeping students and faculty safe

REACH UP TO 18' WITH QUICK CLICK ATTACHMENT POLES

- Assist in cleaning hard to reach and high access areas without ladders or lifts

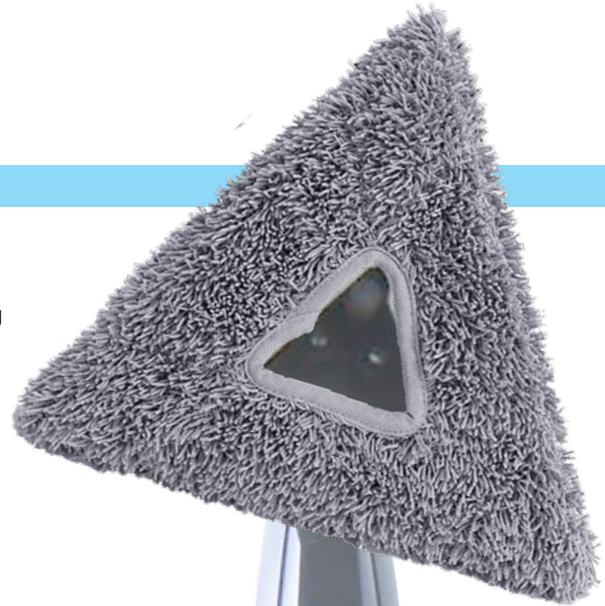

PREFERRED CHEMICAL SOLUTIONS

- Refillable bottle allowing choice of cleaning solution

CLEANING PAD FLEXIBILITY

- Power of microfiber or convenience of disposable QuikPad

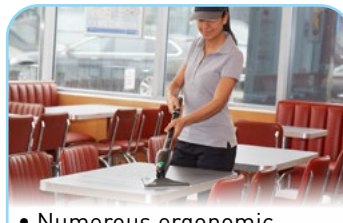

INCREASED PRODUCTIVITY, GREATER COST EFFICIENCY AND SUSTAINABILITY BECAUSE:

- 25% faster than traditional methods**

- 39% less liquid consumption**

- Numerous ergonomic benefits improve workers' comfort and safety – less downtime and health risks!

- Perfect for all day cleaning: no drips and no runs = no mess and health risks!

Cleaning Systems

EASY, FAST, & SAFE

Cleaning with Pure Water

WHAT IS PURE WATER?

It's water in its purest form, physically processed to remove the minerals that would otherwise lead to limescale spots and streaks. Such impurities are referred to as **TDS** (total dissolved solids) and are measured in **ppm** (parts per million). The water is considered 100% demineralized (pure) when TDS is 0 ppm

ADVANTAGES

EASY:

Easy to operate and simple resin change

FAST:

Twice as fast as traditional glass cleaning - just one process

COST-SAVING:

Half the labor costs. No rental for lifts

ENVIRONMENTALLY FRIENDLY:

Glass cleaning completely without chemical cleaning agents

SAFE:

Safe working from the ground up to the 6th floor, with no need for ladders or lifts

*Prof. Dr. rer.nat. Gerhard Winter, Albstadt-Sigmaringen University, seminar documents February/March 2011

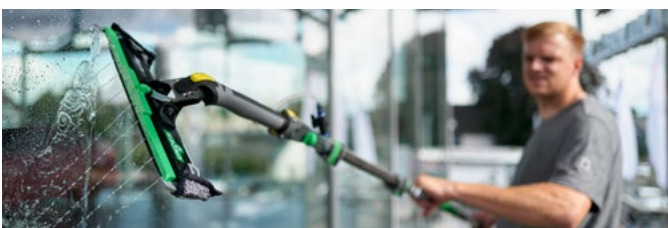

TYPICAL APPLICATIONS

WINDOW AND FACADE CLEANING:

- Fast and effective method – great results!
- Easy access to hard to reach areas

SOLAR PANEL CLEANING:

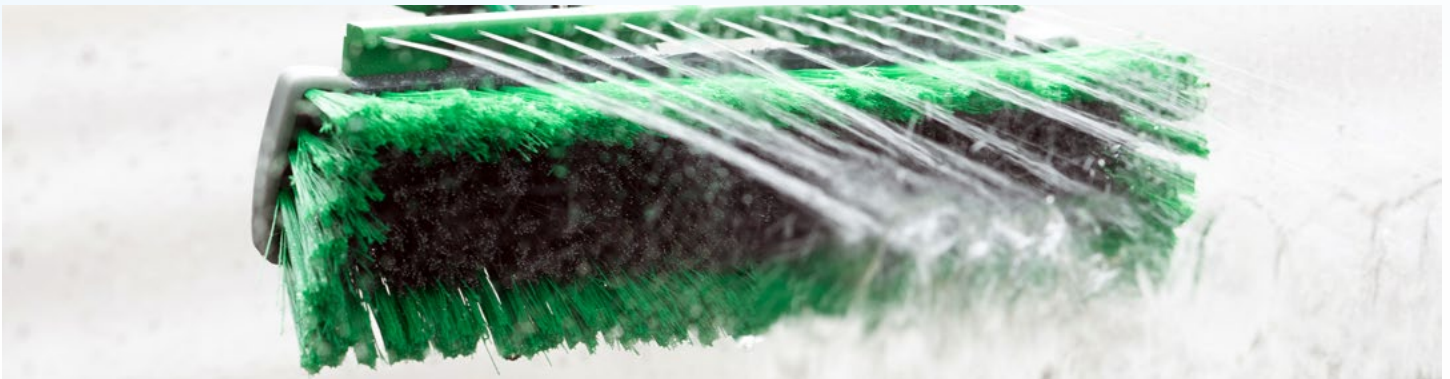

- Regular cleaning prevents build up of dirt for greater energy output
- Solar yield can be increased significantly!
- Cleaning with 100% pure water leaves no streaks or detergent residue

TYPES OF WATER PURIFICATION

There are 2 recognized methods of pure water production in the window cleaning industry – Reverse Osmosis and Deionization. The **UNGER** filters utilize either of these methods

REVERSE OSMOSIS (RO)

Reverse osmosis (RO) is the process of removing impurities from water by forcing it through a filter called the membrane. This process results in pure water with a particularly high cleaning efficiency that leaves surfaces without streaks

DEIONIZATION (DI)

Deionization is the process of removing positive metallic ions (impurities) and replacing them with hydrogen and hydroxyl, respectively forming pure water. This process removes up to 99% of all the sediment and minerals which creates impurity-free water

A PURE WATER FILTERS

DI filter

RO filter

B WATERFED POLE TOOLS

HYDROPOWER[®] ULTRA

Efficient pure water cleaning with a DI system

THE HYDRO POWER[®] ULTRA SYSTEM

The **UNGER HydroPower[®] Ultra** is designed to be the perfect fit for professional window cleaners that demand the best for their washing services. With over 30%* more pure water per resin filling, the FloWater Technology 2.0 ensures an efficient flow of water through the whole tank, optimizing the resin saturation

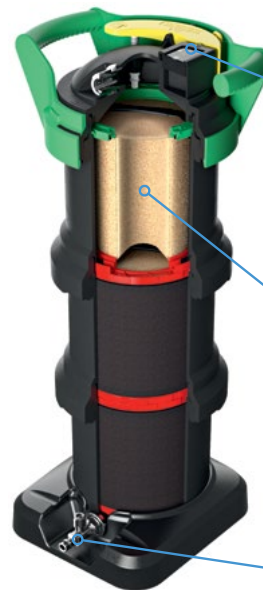

ULTRA RESIN PACKS

Premium Ultra Resin
Perfected ion exchange resin, as required for cleaning glass

BUILT-IN TDS-METER

• ULTRA RESIN PACKS

• WATER CONNECTIONS

RECOMMENDED USE

- Areas with soft or medium water hardness
- Suitable for sporadic and regular use
- Small - ideal for tight working environment, occasional use, or for beginners
- Large - optimal for larger work areas and more regular cleaning

*In comparison with standard DI systems (e.g. **UNGER HydroPower[®] DI** filters).

Your economical solution for cleaning with pure water in hard water areas

REVERSE OSMOSIS FILTER (RO)

Cleaning with pure water reduces running costs, especially in areas with hard water. The **HydroPower® RO** pressurizes water through a 3-stage filtration process, resulting in high cleaning efficiency that leaves surfaces streak-free. The boost function provides high pressure dirt and debris removal while optimizing filter usage

BENEFITS

QUALITY

- Centrifugal pump made of stainless steel for constant and high water flow
- Trouble-free operation even after a long time

EASY

- The pre-filter and DI filter are easy to replace and can be visually inspected during work
- Removable back cover for easy access to all electrical components

LONGEVITY

- High-quality materials ensure a long service life
- Durable stainless steel quick connectors prevent dripping
- Heavy-duty stainless steel frame with maintenance-free solid rubber wheels

RECOMMENDED USE

- Areas with hard to very hard water hardness
- Constant water purification with high water demand

HYDROPOWER[®] RO SYSTEM

ADDITIONAL FEATURES

- Pure Water Mode: up to 60 gal./h (227l/h) of pure water with 58 PSI (4 bar)
- BOOST Mode: 108 gal./h (409l/h) of tap water with 116-145 PSI (8-10 bar)
- Compact and robust design makes it easy to transport and maintain: 38" x 21" x 18", 110 lbs
- **High-Quality 3-stage filtration**
 - Pre-filter to capture chlorine and sediments
 - Premium 30" RO membrane to remove dissolved minerals
 - DI polisher to filter any remaining impurities
- 15'4.6m power cable length

EASY AND SAFE OPERATION

- TDS measuring device shows the quality of the source water at the push of a button
- Manual flushing of the RO membrane for an extended service life
- Automatic shutdown function to protect the pump if the water supply fails

BOOST MODE

- Pure water mode: pure water for streak-free cleaning of windows and facades
- Boost mode: strong tap water jet on demand for pre-washing heavily soiled surfaces and cobwebs

HydroPower[®] RO

CF86G	Main pole	28'/8.5m	6
CF33G	Extension pole	10.5'/3.2m	2

nLITE® Power Brushes for the daily challenges in cleaning with pure water

RINSE BAR

- Multiple jets for powerful rinsing

POWER BRISTLE TECHNOLOGY

- Inner bristles with extremely high cleaning performance, comparable to natural hair bristles
- Longer outer bristles for easy gliding: no more jumping of the brush

SOFT TOUCH BUMPER

Edge protection made of soft plastic:

- Secure protection from scratches and other damage to window frames
- Significant noise reduction when in contact with parts of the building

SWIVEL LOCK

- Swivel freely through 180°, enabling the surface to be cleaned with an "S" movement with the brush body being placed over the entire surface
- Enlarges the work area

Outstanding down to the last detail: a fully optimized brush concept prepares you for almost any challenge

- Versatile water distribution system
- Innovative bristle technology
- Precision cleaning down to the last corner

nLITE® PowerPad for faster and easier pure water cleaning

The innovative **nLITE® PowerPad** is the ultimate alternative to waterfed brushes for cleaning glass surfaces. This intuitive and revolutionary design makes cleaning with pure water faster and more effective. Ideal for first floor cleaning.

Perfect for pure water professionals and those new to Unger pure water technology.

360°

360° MOVEMENT

- Innovative swivel function allows for 360° movement, creating permanent contact on the glass
- Can be locked in 7 working positions for every type of use

POWERFUL RINSING

Special rinse bar for powerful, uniform rinsing of the pad and glass over the entire width

FULLY COMPATIBLE

Suitable for all **nLITE®** and Optiloc poles from **UNGER**, as well as a handheld tool for easy to reach windows

EFFECTIVE MICROFIBER

- Larger contact area on the glass – faster and more effective than any brush
- Constant pure water flow self-cleans the pad to reduce dirt build-up
- Highly effective microfiber technology for streak-free cleaning
