Cleaning with Pure Water

WHAT IS PURE WATER?

It's water in its purest form, physically processed to remove the minerals that would otherwise lead to lime-scale spots and streaks. Such impurities are referred to as **TDS** (total dissolved solids) and are measured in **ppm** (parts per million). The water is considered 100% de-mineralized (pure) when TDS is 0 ppm.

UNDERSTANDING TDS

TDS (Total Dissolved Solids) measures the mineral content in water, which affects how efficiently a pure water system operates. Higher TDS consumes more resin, reducing system output before resin change is needed. Lower TDS allows for more pure water production with less resin use. Understanding your TDS level helps determine the right system capacity and maintenance needs.

FILTRATION METHODS

Deionization: Ultra resin pack filtration

Nanofiltration: High-Quality triple-stage filtration using a large pore membrane

Reverse Osmosis: High-Quality triple-stage filtration using a smaller pore membrane

ADVANTAGES

- **EASY:** Easy to operate and simple resin change
- **FAST:** Twice as fast as traditional glass cleaning - just one process
- **COST-SAVING:** Half the labor costs. No rental for lifts
- **ENVIRONMENTALLY FRIENDLY:** Glass cleaning without harmful cleaning chemicals
- **SAFE:** Safely work from the ground up to 55 ft., with no need for ladders or lifts

Water purification

TYPES OF WATER PURIFICATION

There are three methods of water purification that are used in the window cleaning industry: Deionization, Nanofiltration, and Reverse Osmosis.

Find the water filtration system that meets your pure water cleaning needs.

SITUATION	ULTRA	NANO	RO
Hard Water		✓	✓
Daily Window Cleaning	✓	✓	✓
Low Water Pressure			✓
Access to Electricity			✓
Compact & Lightweight	✓		
Investment Cost	Low	Medium	High
Resin Replacement	Frequent	Moderate	Minimal
Membrane Replacement		Minimal	Minimal

MARKETS WE SERVE

Unger's pure water tools support a diversified portfolio of industries with professional cleaning solutions that address the specific needs of your facility. Our products not only help you maintain a pristine facility, but they also improve OSHA compliance and overall employee productivity and well-being.

HYDROPOWER® ULTRA

Efficient pure water cleaning with a Deionization (DI) system

HYDRO POWER® ULTRA SYSTEM

Designed for professional window cleaners who demand top performance. FloWater™ Technology 2.0 delivers over 30% more pure water per resin fill, ensuring efficient water flow and optimal resin saturation throughout the tank.

HYDRO POWER® ULTRA TANKS

RECOMMENDED USE

- Areas with soft or medium water hardness
- Suitable for sporadic and regular use
- Small Tank - ideal for tight working environment, occasional use, or for beginners
- Large Tank - optimal for larger work areas and more regular cleaning

HYDRO POWER® ULTRA RESINS

ULTRA RESIN PACKS

Premium Ultra Resin
Delivers optimal filtration and water flow

UNGER
Quality Tools for Smart Cleaning™

HYDROPOWER® NANO SYSTEM

Economical Pure Water System with Nanofiltration & DI Technology for Superior Cleaning

HYBRID PURE WATER SYSTEM

Revolutionize your cleaning process with this advanced, hybrid Pure Water System.

Designed for cleaning professionals, it seamlessly integrates a triple-stage filtration system with a pre-filter, a 40" large-pore nano-membrane, and the proven HydroPower DI resin unit.

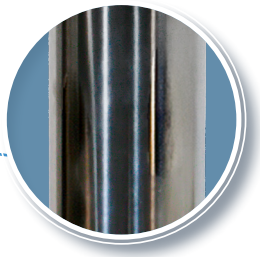

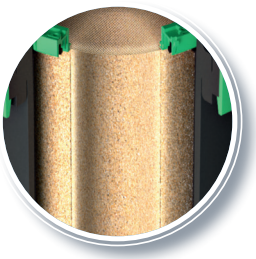

FLOW OPTIMIZER DIAL

PRE-FILTER

LARGE PORE NANO MEMBRANE

HYDROPOWER ULTRA DI RESIN UNIT

ADVANTAGES

- **RESIN LONGEVITY**
- **TRANSPORTABLE**
- **CONSERVES WATER**
- **NO ELECTRICITY**

HYDRO POWER® NANO SYSTEM

The system delivers an economical and effective cleaning solution that produces spotless, pure water for a streak-free finish. With an emphasis on portability, performance, and ease of use, it's a perfect choice for cleaning windows, facades, and hard-to-reach surfaces.

HydroPower® NANO COMPLETE

Part No.	Case Qty.
NANOC	1

RECOMMENDED USE

- Areas with moderate to high water hardness
- Continuous water purification to meet high demand

ADDITIONAL FEATURES

- Produces up to 1.5 gallons of pure water per minute for streak-free cleaning of smooth exterior surfaces
- Compact, portable design ensures easy transport and maintenance
- **Triple-stage filtration**
  - Pre-filter to capture chlorine and sediments
  - Large pore nano membrane removes impurities from water at a molecular level to provide maximum water flow
  - DI resin to filter any remaining impurities

HydroPower® NANO BASE

Part No.	Case Qty.
NANOB	1

UNGER
Quality Tools for Smart Cleaning™

HYDROPOWER® RO SYSTEM

Advanced Three-Stage Reverse Osmosis Pure Water Filtration System

REVERSE OSMOSIS FILTER (RO)

Cleaning with pure water reduces running costs, especially in areas with hard water. The **HydroPower® RO** pressurizes water through a 3-stage filtration process, resulting in high cleaning efficiency that leaves surfaces streak-free. The boost function provides high pressure dirt and debris removal while optimizing filter usage.

SIMPLE AND SAFE OPERATION

- TDS measuring device shows the quality of the source water at the push of a button
- Manual flushing of the RO membrane for an extended service life
- Automatic shutdown function to protect the pump if the water supply fails

USER-FRIENDLY

CLEANING MODES

- Pure water mode: pure water for streak-free cleaning of windows and facades
- Boost mode: strong tap water jet on demand for pre-washing heavily soiled surfaces and other dirt that a brush can't reach

HydroPower® RO	
Part No.	**Case Qty.**
RO20S	1

RECOMMENDED USE

- Areas with hard to very hard water
- Constant water purification with high water demand

ADDITIONAL FEATURES

- **Pure water mode** (up to 60 gal. per hour output): pure water for streak-free cleaning of smooth exterior surfaces
- **Boost mode** (up to 108 gal. per hour output): strong tap water jet on demand for pre-washing heavily soiled surfaces and other dirt that a brush can't reach
- **Easy to transport and maintain** with a compact, robust design: 38" x 21" x 18", 110 lbs
- **High-Quality 3-stage filtration**
  - Pre-filter to capture chlorine and sediments
  - Premium 30" RO membrane to remove dissolve minerals
  - DI polisher to filter any remaining impurities
- 15' / 4.6 m power cable length

BENEFITS

Powerful quality pump

- Centrifugal pump made of stainless steel for constant and high water flow
- Designed for trouble-free, high use operation

Quick maintenance

- The pre-filter and DI filter are easy to replace and can be visually inspected during work
- Removable back cover for easy access to all electrical components

Compact and robust design

- High-quality materials ensure a long service life
- Durable stainless steel quick connectors prevent dripping
- Heavy-duty stainless steel frame with maintenance-free solid rubber wheels

UNGER
Quality Tools for Smart Cleaning™

nLITE®

Strong and lightweight high-reach modular pole systems designed for commercial use

UNGER nLITE®

The next generation of the **UNGER nLITE®** Waterfed Pole System exemplifies innovation and high quality. Using pure water is the fastest and most efficient way to clean outdoor glass surfaces. The lightweight and rigid **nLITE®** carbon waterfed poles help keep workers safe by allowing them to clean from the ground.

ADVANTAGES

- No twisting: trouble-free work and less wear and tear
- Optimal stability-to-weight ratio
- Greater pole rigidity
- More precise control of the cleaning movement

CARBON COMPOSITE — Generation 2

***Working Reach** is the combined measurement of the fully extended poles, adapter, brush and worker's reach.

Safely work up to 65 ft. / 20 m, with no ladders or lifts

REACH NEW HEIGHTS FROM THE GROUND

Cleaning windows from the ground using **UNGER nLITE®** telescopic poles is an efficient and safe method, especially for heights up to 65 feet.

These poles are made from lightweight yet durable material using carbon fiber and fiberglass. This allows cleaners to reach high windows without the need for ladders or scaffolding, reducing the risk of falls.

To ensure safety, these poles are well-built and extend smoothly, with secure locking clamps to avoid accidents.

UNGER

Quality Tools for Smart Cleaning™

nLITE® CARBON 16K

The nLITE® Carbon 16K is your go-to waterfed telescopic pole for everyday window cleaning. Designed with professional-grade carbon fiber, it offers the perfect balance of rigidity, weight, and durability at an exceptional value.

EXTENDED REACH, COMPACT SIZE

Available in two lengths with 7 or 9 sections, the nLITE® Carbon 16K gives you the flexibility to clean at heights up to 40 feet / 12.2 m. When collapsed, the pole measures just 5.7' / 1.7 m, making it easy to carry and store.

PROFESSIONAL EQUIPMENT

Comes equipped with an angle adapter that fits all nLITE® waterfed brushes. Built-in safety stop prevents accidental pole separation during use.

ANGLE ADAPTER

LOCKING CLAMPS

nLITE® BRUSHES *(Sold separately)*

Compatible with Unger's full line of brushes and PowerPad to meet your many different cleaning needs.

nLITE® Power Brushes: The pure water cleaning solution for daily use

RINSE BAR
Flushing nozzle bar for powerful rinsing

POWER BRISTLE TECHNOLOGY
- Inner bristles with extremely high cleaning performance, comparable to natural hair bristles
- Longer outer bristles for easy gliding: no more jumping of the brush

SOFT TOUCH BUMPER
Edge protection made of soft plastic:
- Secure protection from scratches and other damage to window frames
- Significant noise reduction when in contact with parts of the building

SWIVEL LOCK
- Freely swivels through 180° for smooth, ergonomic "S"-motion cleaning
- Allows the brush body to maintain full contact across entire surface

OPTIMIZED BRUSH DESIGN
- Versatile water distribution system
- Innovative bristle technology
- Precision cleaning down to the last corner

nLITE® POWER BRUSH - FLAGGED		
Part No.	**Size**	**Case Qty.**
NFK28	11 " / 28 cm	1

- Green flagged bristles for maximum cleaning performance and gliding results

nLITE® HYBRID BOAR'S HAIR BRUSH - UNFLAGGED		
Part No.	**Size**	**Case Qty.**
NUH41	16 " / 41 cm	1

- Outer boar bristles - high cleaning power with no streaks
- Inner Power Bristle Technology - very high scrubbing power - easy glide - low water absorption

nLITE® RADIUS BRUSH - FLAGGED		
Part No.	**Size**	**Case Qty.**
NFR28	11 " / 28 cm	1

- Flagged bristles deliver smooth, effective cleaning with greater glass contact
- Angled design easily cleans large glass surfaces, sills, and ledges

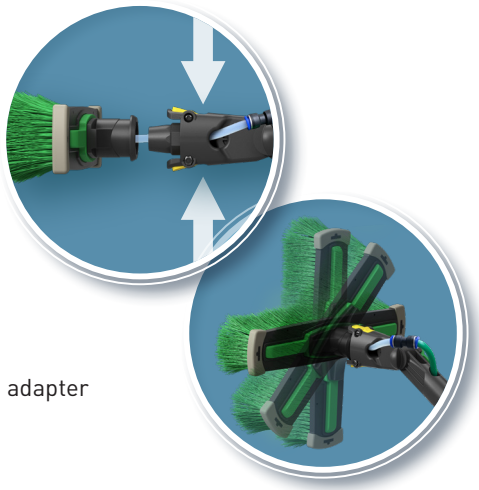

nLITE® Angle Adapters clean from every angle!

EASILY ADJUSTABLE

Simple, fast and stable connection for every working situation with a single click:

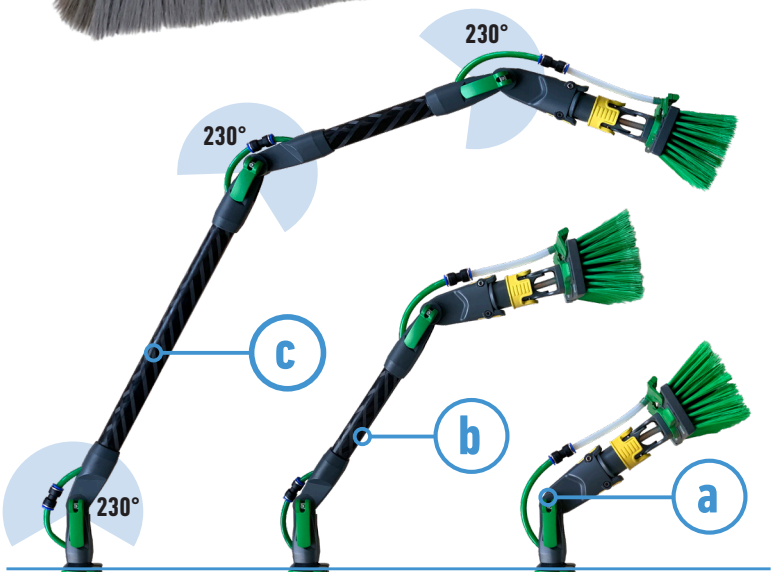

- Change brushes in seconds
- Adjust brush angle in 45° increments
- No twisting when cleaning!

Simply adapt the modular angle adapter individually to your application

nLITE®

PowerPad: For faster and easier pure water cleaning

nLITE® POWERPAD

The innovative **nLITE® PowerPad** is the ultimate alternative to waterfed brushes for cleaning glass surfaces. This intuitive design makes cleaning with pure water faster and more effective. The PowerPad is ideal for first floor cleaning. It is perfect for pure water professionals and those new to pure water technology.

Fully compatible with all **nLITE®** waterfed, **Ninja™ Carbon**, and **OptiLoc®** telescopic poles

Use as a hand tool

360° MOVEMENT

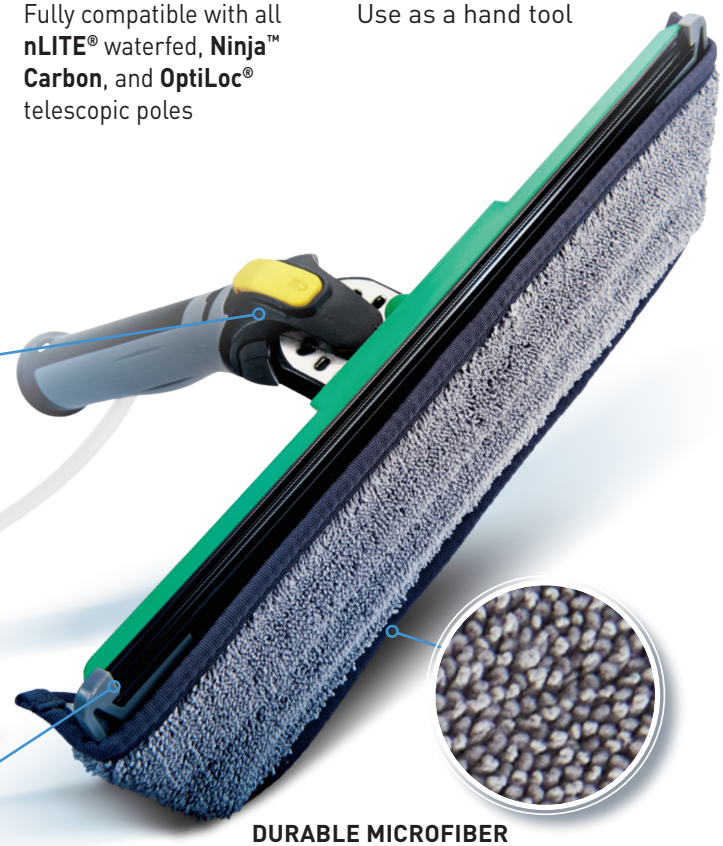

- Innovative swivel function allows for 360° movement, creating permanent contact on the glass
- Can be locked in 7 working positions for every type of use

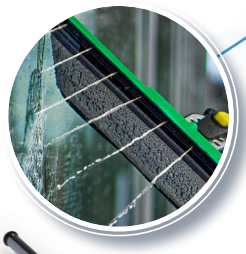

FULLY COMPATIBLE

Suitable for all **nLITE®**, **Ninja™ Carbon,** and **OptiLoc®** pole systems from **UNGER**

POWERFUL RINSING

Special rinse bar for powerful, uniform rinsing of the pad and glass over the entire width

DURABLE MICROFIBER

- Larger contact area on the glass – faster and more effective than any brush
- Constant pure water flow self-cleans the pad to reduce dirt build-up
- Highly effective microfiber technology for streak-free cleaning

Quality Tools for Smart Cleaning™

CLEANRx™
A HIGHER LEVEL OF CLEAN

Janitorial Carts Overview

CLEANRx JANITORIAL CART SYSTEM

For years, frontline teams have been forced to rely on "hallway hacks" to overcome equipment flaws. If a cart requires improvisation to function, it isn't a tool, it's an obstacle.

CleanRx™ was born from the real-world pain points of those who know the job best, delivering the modularity and durability required for the relentless demands of the facility.

Modular Janitorial Cart Systems Tailored to Your Site

ADVANTAGES

CUSTOMIZABLE
Modular configurations designed to adapt to the task, not the other way around

DURABLE
Pro-grade built for the rigors of cleaning with heavy-duty capacity and silent mobility

SECURE
Lockable cabinets and concealed storage ensure safety, compliance, and theft deterrence

Cleaning products and supplies not included.

12+ new features

BUILT WITH PURPOSE

Each innovative feature has a specialized purpose that is customizable for your specific work needs.

LOCKABLE LID & DOORS
Secure storage safeguards cleaning supplies

DUAL-POSITION SNAP SHUT TRASH LID
Hides waste, reduces odors, and improves appearance

MULTI-PURPOSE BASE PLATFORM
For a 32-gallon waste container, mop bucket, or backpack vacuum

CleanRx Elite model shown here.

Quality Tools for Smart Cleaning™

OmniClean™

How does the OmniClean work to truly clean floors?

DUAL BUCKET TECHNOLOGY

OmniClean features dual bucket technology to separate clean and dirty solutions, ensuring the StayClean charging bucket is always clean.

HYGIENIC CLEANING AND HIGHER PRODUCTIVITY

CLEANER: 2 times more effective at removing microbes* than traditional floor cleaning systems

FASTER: Over 40% more efficient than conventional floor cleaning systems

SAFER: Cleaned surfaces dry twice as fast* minimizing the risk of accidents

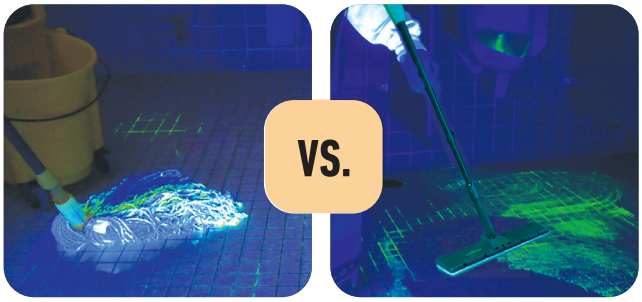

ENHANCE PRODUCTIVITY

Its many distinctive ergonomic design features enhance worker productivity, reduce injuries, and increased cleaning performance

- Separate cleaning solution from soiled rinse solution
- Prevent cross-contamination
- Save on water and chemicals
- Mounts on all standard cleaning carts
- Additional cleaning tools can be stored in tool clips

COTTON VS. MICROFIBER

Black light experiment reveals the advantages of using microfiber flat mops vs. cotton string mops

COTTON STRING MOP
Cotton string mop pushes dirt around

MICROFIBER FLAT MOP
Microfiber flat mop removes dirt

*Independent test report from Sitemark® FM Best Practice Benchmarking

FEATURES AND BENEFITS

Compact and light-weight dual bucket for damp and wet mopping of floors

Ergonomic floor mopping and wringing out of the mop without bending down

The two-chamber system ensures hygienic cleaning by preventing dirty solution reuse.

Effective mop preparation with visual inspection – without touching it

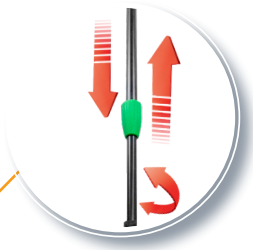

Ideal for small and medium surface areas like offices, classrooms, and convenience stores

Designed for comfort, built for clean, consistent results

ADVANCED DESIGN

Each part of the **OmniClean** Cart has been thoughtfully designed with the user in mind. Designed with both efficiency and ergonomics in mind, this advanced dual-bucket system elevates the cleaning experience.

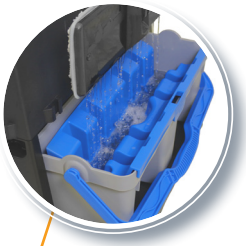

ERGONOMIC HANDLE
Adjustable height pole provides a customizable fit for the user

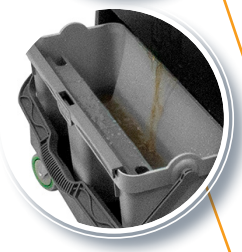

INNOVATIVE WRINGER
Results in cleaner solution and better cleaning performance

SCRUB BOARD
Removes larger dirt particles from microfiber mop pad

STAYCLEAN BUCKET
Contains a constant supply of fresh cleaning solution

SOIL-CATCHING BUCKET
Separate dirty solution bucket for all debris

MICROFIBER MOP PAD
Mop pad with scrub bristles and color coding
