Restroom Cleaning

# *RESTROOMRX*

A HIGHER LEVEL OF CLEAN

## Safety, Efficiency, Cleanliness

Quality Tools for Smart Cleaning™

## Safety

- +** The Ergo Rail eliminates poor posture. No matter which side of the cart you're on, it can be pushed and pulled with ease. The handrail allows you to maneuver the cart in and out of restroom entrances quicker and easier.
- +** Patented clip system ensures all tools have an identified position on the cart, are securely in place while you are moving down the hall. No bending or reaching to get tools out/off of cart.

## Efficiency

- \$** The Storage Module eliminates restroom complaints. The effort it takes to return to a supply closet to restock supplies can waste more than time. With an expanded storage module, you'll substantially limit trips to the supply closet. Even eliminating one trip a shift increases productivity.
- \$** The patent pending Narrow Tool Tower design allows all tools to remain within the boundaries of the cart. Since no tools hang over the outside edge of the cart, getting through even tight doorways is easy.

## Cleanliness

- ★** From the Dual Bucket to the Telescopic Dustpan, the tools that comprise the system were developed to deliver optimal productivity and cleaning results.
- ★** A patent pending Drip Tray keeps dripping from tools off the floor, and delivers ultimate bucket stability, even when going over curbs or thresholds.
